Other

Description of Other Released Contaminant:

Inspected: **Written Report Received:** 11/14/2016 **Clean Up Concluded:** 10/11/2016

Risk Evaluation:

None noted.

Areal Extent:

Roughly 100 yards by 50 yards of pasture to the southwest of the constructed well pad.

Potential Environmental Impacts:

None noted.

Action Taken or Planned:

The flare was shut in to stop the flow of oil. Fluid on the constructed well location will be sucked up and the impacted facility soil will be scraped up from the location. The grass in the pasture will be mowed and picked up. Monitor and inspect treaters on a routine basis.

Wastes Disposal Location: Republic Services Disposal.
